

Patient Photography & Social Media Policy

To ensure the safety, privacy and dignity of our patients and staff, the practice has the following policy:

- Patients and visitors must not take photographs, video recordings, or audio recordings of dentists, hygienists, nurses or any member of staff while they are carrying out clinical duties.
- Recording of any clinical activity is strictly prohibited without prior consent.
- Photography or filming within clinical areas is not permitted unless formally authorised.
- Any unauthorised images, videos or recordings **MUST NOT** be shared, published or posted on social media or any other platform.
- Failure to comply with this policy may result in treatment being stopped and could lead to removal from the practice list.

This policy is in place to protect patient confidentiality, staff privacy, and to maintain a safe clinical environment.
